The Unicorn-Encyclopedia

Everything you have to know

We all know about them, but yet we have so little knowledge of these magical animals

Unicorns are the noblest magical beings. They still live among us, only fewer people are able to detect them. In order to protect the last unicorns, we still have to learn a lot about them! This book will help us to take on the task. For instance this encyclopedia introduces all the different kinds of Unicorns, explains where we can find them, who their friends and enemies are and much much more!

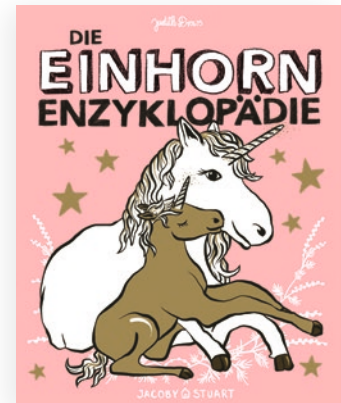

»For all unicorn-loving people and also for all skeptics – be they young and old –, I have gathered ancient knowledge and recent discoveries from all over the world about the noblest of all magical creatures.«
